ARPRIM, articule, AXENEO7, le Centre CLARK, Joyce Yahouda Gallery and SAW Gallery are proud to announce the launch of HB magazine, an ambitious collaborative project focusing on the dissemination and promotion of drawing practices.

HB is a magazine, a gallery on paper, a platform—a dynamic space dedicated to contemporary drawing. Our intention is to showcase the work of key artists who have left a mark on the art world and who continue to shape it; the work of young artists whose practices show promise, and impress; the work of individuals who draw in private; the work of artists who have not yet had a chance to exhibit their drawings; as well as the work of more marginalised artists. Structured so that each page threads together a set of visual sequences, HB is a space for exchange in which images take precedence over words. With little text and many drawings, each issue of HB follows its own intuitions, themes or techniques.

The first issue, available in February, offers a selection of works by: Shuvinai Ashoona, Elmyra Bouchard, Josée Dubeau, Patrice Duhamel, Michelle Furlong, Kim Kielhofner, Martin Lord, François Morelli, Adrian Norvid, Marigold Santos, Matt Shane, Winnie Truong and Balint Zsako.

We hope you will join us in celebrating the launch of this first issue.
